### **#TerrorismHasNoReligion**

---

Anjuman e AhleBayt strongly condemns the perpetrators of this heinous crime in France. It is an act of absolute barbarism and has no place in Islam a faith of nonviolence.

These terrorists and their supporters conducted a similar incident in Lebanon a day prior, and also brought down the Russian airliner earlier. All these acts are contrary to our values, our learning, and they taint our religion which places utmost sanctity on human life.

These barbaric criminals and their supporters do not represent Islam and have no place in humanity. We strongly urge the authorities to swiftly apprehend these perpetrators, and supporters and punish them to the fullest extent.
